"My greatest satisfaction is designing engaged workplaces for my clients where employees are excited to come to work, performing to their potential and are actively supporting the goals of the business."

Dena partners with clients to lay the Human Resources foundation for a high performance culture. Having effective Human Resources programs, processes and systems in place before a period of growth is like having a compass, map and supplies prior to a hike. You will get to the destination quicker, without injury and have some fun along the way.

With over 20 years in the Human Resources business, Dena has worked for large corporations such as PCL Construction, Hewlett Packard, Loblaws and Maple Leaf Foods. Dena now brings her big business experience to the entrepreneurial business community. Delivering high quality HR solutions to small and medium sized businesses that don't have the expertise in-house is her driving passion.

Do you need to get a handle on your workforce and control related costs? Dena can provide you with the information to make informed people decisions, structure your HR systems to prevent employment claims and unlock the potential of your people.

Whether you are struggling with a new business, experiencing a downturn, growing organically or acquiring a new business, Dena can help with the people side of your organization. She has recruited labourers to executives, navigated the trickiest of employee situations, designed and implemented all types of HR programs, improved employee engagement and more.

Dena's education in Human Resources Management from Grant MacEwan University is coupled with a Certified Human Resources Professional (CHRP) designation. As well, she recently completed her Certificate in Organizational Development.

Dena has been with her husband longer than she has been working in HR! Together they are raising their teenaged son. They spend much of their free time north of Edmonton at their small cabin enjoying boating, riding, fishing, sledding and other outdoor adventures.
